COURSE OVERVIEW

Unlock the full potential of interactive eLearning with the Adobe Captivate Classic Course at Computer Pride. This comprehensive program is meticulously designed for intermediate users eager to master one of the industry's leading authoring tools. You will delve deep into creating dynamic, engaging, and responsive eLearning content, simulations, and assessments, equipping you with the skills to transform static training materials into captivating learning experiences. The course covers everything from foundational project setup and slide design to advanced interactivity, quizzing, and seamless integration with Learning Management Systems (LMS).

Throughout this course, you'll gain hands-on expertise with Captivate Classic's powerful features, including fluid boxes for responsive design, variables and advanced actions for complex branching scenarios, and robust quizzing capabilities for effective learner evaluation. By mastering these core technologies, you will not only enhance your technical proficiency but also significantly boost your career prospects in the rapidly evolving field of digital education and corporate training. This certification empowers you to design and deliver high-impact learning solutions that drive engagement, retention, and measurable performance improvement within any organization.

Level	Intermediate
Vendor	Adobe

COURSE CURRICULUM

01 Module 1: Getting Started with Adobe Captivate Classic

- Understanding the Captivate Classic interface and workspaces
- Setting up new projects: blank, responsive, and software simulations
- Working with slides, themes, and master slides
- Importing existing content and multimedia assets
- Previewing and publishing options

02 Module 2: Building Interactive Content and Media

- Adding and customizing text captions, images, and shapes
- Integrating audio and video: recording, editing, and syncing
- Working with buttons, click boxes, and hotspots
- Creating drag-and-drop interactions
- Using the timeline for object animation and synchronization

03 Module 3: Advanced Actions and Branching Scenarios

- Understanding variables: user-defined and system variables
- Creating standard and advanced actions for complex interactions
- Implementing conditional logic and shared actions
- Designing branching scenarios for personalized learning paths
- Utilizing widgets and learning interactions

04 Module 4: Quizzing and Assessments

- Creating various types of question slides (Multiple Choice, True/False, Fill-in-the-Blank, etc.)
- Configuring quiz preferences, scoring, and remediation
- Setting up custom questions and question pools
- Implementing quiz reporting and tracking options
- Reviewing and publishing quizzes for SCORM/xAPI compliance

05 Module 5: Responsive Design and Accessibility

- Mastering Fluid Boxes for adaptive content layout
- Designing for multiple devices with breakpoint views
- Implementing accessibility features (Section 508 and WCAG compliance)
- Adding closed captions and alternative text for media
- Testing responsive projects across various screen sizes

06 Module 6: Publishing and LMS Integration

- Publishing projects to HTML5, MP4 video, and executable formats
- Understanding SCORM and xAPI standards for LMS integration
- Configuring reporting options for different LMS platforms
- Troubleshooting common publishing and LMS issues
- Best practices for reviewing, packaging, and deploying eLearning content

CAREER PATHWAYS

Graduates of this program are prepared for the following roles:

- > **eLearning Content Developer specializing in interactive simulations and scenario-based training**
- > **Instructional Designer with advanced Adobe Captivate Classic expertise for corporate training departments**
- > **Digital Learning Specialist responsible for developing and deploying engaging online courses for educational institutions**

FREQUENTLY ASKED QUESTIONS

Q: What prior experience or software knowledge is recommended before enrolling in the Adobe Captivate Classic Course?

While there are no strict prerequisites for this intermediate course, a basic understanding of computer operations and familiarity with presentation software (like PowerPoint) is beneficial. Prior exposure to general instructional design principles or experience in creating training materials will also enhance your learning experience, though it's not mandatory. This course assumes a foundational comfort with software interfaces and a willingness to explore interactive design.

Q: Beyond basic course creation, what advanced interactive features will I be able to implement using Adobe Captivate Classic after completing this course?

Upon completion, you will be proficient in implementing advanced interactivity such as complex branching scenarios using variables and advanced actions, creating sophisticated drag-and-drop interactions, and developing highly customized quizzes with intricate scoring logic and remediation. You'll also master responsive design using Fluid Boxes to ensure your content adapts seamlessly across devices, and be able to integrate accessibility features for a wider audience reach.

Q: How does mastering Adobe Captivate Classic specifically enhance my capabilities as an Instructional Designer or Learning & Development professional?

Mastering Adobe Captivate Classic transforms an Instructional Designer or L&D professional's ability to create dynamic, measurable, and engaging learning experiences. You'll move beyond static presentations to craft interactive simulations,

scenario-based training, and robust assessments that directly impact learner retention and performance. This skill set is critical for developing modern, scalable eLearning solutions, positioning you as an indispensable asset in any organization focused on digital learning and talent development.

ABOUT COMPUTER PRIDE

East Africa's Premier IT Training Center

With over 15 years of excellence, Computer Pride delivers globally recognized certification programs from leading technology vendors. Located on Kenyatta Avenue in Nairobi's CBD, our state-of-the-art facilities and expert instructors have empowered thousands of professionals across East Africa.
