COURSE OVERVIEW

This intermediate-level course, "Create Adaptive Forms Using Adobe Experience Manager," is meticulously designed to equip professionals with the essential skills to develop dynamic, user-friendly, and responsive forms within the Adobe Experience Manager (AEM) platform. Adaptive Forms are a cornerstone of modern digital experiences, allowing organizations to create forms that adapt seamlessly to various devices and user inputs, thereby enhancing data collection efficiency and improving the overall customer journey. Participants will delve into the core capabilities of AEM Forms, learning to leverage its intuitive authoring environment to design and implement sophisticated forms that meet diverse business needs.

Over the course of two hours, you will gain hands-on experience with AEM's Adaptive Forms editor, exploring key concepts such as form fragments, themes, validation rules, and data integration. The curriculum emphasizes practical application, ensuring you can immediately apply learned techniques to build forms that not only look great but also perform optimally. Mastering Adaptive Forms in AEM is crucial for anyone involved in digital content management, web development, or customer experience roles, as it enables the creation of personalized interactions, streamlined workflows, and ultimately, more effective digital communication with users and customers.

Duration	2 hours
Level	Intermediate
Vendor	Microsoft

COURSE CURRICULUM

- 01 Module 1: Introduction to AEM Adaptive Forms**
 - Understanding Adaptive Forms: Definition and Benefits
 - Key Use Cases for Adaptive Forms in AEM
 - Overview of AEM Forms Architecture
 - Exploring the Adaptive Forms User Interface
- 02 Module 2: Building Basic Adaptive Forms**
 - Creating a New Adaptive Form
 - Working with Core Components and Layouts
 - Leveraging Form Fragments for Reusability
 - Applying Themes and Styles to Forms
- 03 Module 3: Enhancing User Experience and Logic**
 - Implementing Client-Side Validation Rules
 - Utilizing the Rules Editor for Dynamic Behavior
 - Pre-filling Form Data from External Sources (Overview)
 - Creating Dynamic Sections and Panels
- 04 Module 4: Form Submission and Integration**
 - Configuring Submission Actions and Thank You Pages
 - Integrating Forms with AEM Workflows
 - Introduction to AEM Forms Data Model (FDM) for External System Integration
 - Overview of Data Persistence Options

CAREER PATHWAYS

Graduates of this program are prepared for the following roles:

- > **AEM Forms Developer**
- > **Digital Experience Architect**
- > **Marketing Technologist**

FREQUENTLY ASKED QUESTIONS

Q: What foundational AEM knowledge is recommended before enrolling in this Adaptive Forms course?

While this is an intermediate course, it is highly recommended that participants have a basic understanding of AEM authoring concepts, including navigating the AEM interface, creating pages, and working with content fragments. Familiarity with general web concepts (HTML, CSS) will also be beneficial, though not strictly required for the core Adaptive Forms creation.

Q: How will mastering Adaptive Forms in AEM specifically enhance my ability to deliver personalized digital experiences?

Mastering Adaptive Forms empowers you to create highly personalized user interactions. You'll learn to implement dynamic rules that show or hide fields based on user input, pre-populate forms with existing customer data, and configure submission processes that trigger personalized follow-up actions. This leads to more relevant and efficient user journeys, significantly improving conversion rates and customer satisfaction on your AEM-powered sites.

Q: Can the skills learned in this course be applied to integrate forms with external enterprise systems like CRM or ERP?

Yes, this course provides a foundational understanding of configuring submission actions and introduces the AEM Forms Data Model (FDM), which is crucial for integrating forms with external enterprise systems like CRM, ERP, or databases. While specific API integrations for external systems are advanced topics beyond this 2-hour course, the knowledge gained here is a direct prerequisite and essential stepping stone for building those complex integrations within AEM.

ABOUT COMPUTER PRIDE

East Africa's Premier IT Training Center

With over 15 years of excellence, Computer Pride delivers globally recognized certification programs from leading technology vendors. Located on Kenyatta Avenue in Nairobi's CBD, our state-of-the-art facilities and expert instructors have empowered thousands of professionals across East Africa.
