COURSE OVERVIEW

This intermediate-level Microsoft Dynamics Finance course at Computer Pride provides an in-depth exploration of Microsoft Dynamics 365 Finance, a leading enterprise resource planning (ERP) solution. Participants will gain comprehensive skills in managing core financial operations, from general ledger and accounts payable/receivable to budgeting, fixed assets, and financial reporting. The course emphasizes practical application, empowering professionals to leverage Dynamics 365 Finance for enhanced financial control, strategic decision-making, and operational efficiency within organizations.

By mastering Dynamics 365 Finance, you will learn to streamline financial processes, ensure regulatory compliance, and generate insightful financial reports. This program is designed for finance professionals, consultants, and IT specialists looking to specialize in ERP implementation and management. You'll gain hands-on experience with key modules, understand best practices for financial data management, and prepare to contribute significantly to an organization's financial success by optimizing their use of this powerful Microsoft business application.

Duration	8 Hours
Level	Intermediate
Vendor	Microsoft

- > **ERP Financial Analyst**
- > **Financial Systems Administrator (Dynamics 365)**

FREQUENTLY ASKED QUESTIONS

Q: What specific real-world financial challenges will I be able to solve using the skills gained from this Microsoft Dynamics Finance course?

This course equips you to address challenges such as optimizing accounts payable and receivable processes, ensuring accurate financial reporting for compliance, streamlining budgeting and forecasting, managing fixed assets efficiently, and enabling robust cash flow management. You'll learn to configure and utilize Dynamics 365 Finance to provide a single source of truth for financial data, facilitating better decision-making and reducing manual errors.

Q: What are the recommended prerequisites or ideal background for someone looking to enroll in the Microsoft Dynamics Finance course?

While there are no strict technical coding prerequisites, a foundational understanding of core accounting principles and financial management concepts is highly beneficial. Experience with basic ERP systems or business applications is a plus. This course is designed for finance professionals, accountants, financial analysts, and IT professionals who work closely with finance departments and wish to specialize in Dynamics 365 Finance.

Q: How does this course prepare me for potential certification in Microsoft Dynamics 365 Finance, and what career advancement can I expect?

This course directly aligns with the knowledge domains required for the Microsoft Certified: Dynamics 365 Finance Functional Consultant Associate certification (e.g., Exam MB-310). By covering key modules like General Ledger, AP/AR, Budgeting, and Fixed Assets, it builds a strong practical foundation. Graduates can advance into roles such as Dynamics 365 Finance Functional Consultant, ERP Financial Analyst, or Financial Systems Specialist, driving financial transformation projects and optimizing organizational financial health.
