COURSE OVERVIEW

Unlock the financial intelligence behind Microsoft Viva with Computer Pride's specialized "Microsoft Viva Cost" course. This intermediate-level, 2-hour program is expertly designed for IT professionals, business leaders, and procurement specialists seeking to understand, manage, and optimize their investments in Microsoft's employee experience platform. You'll delve into the intricacies of Viva's licensing models, subscription tiers, and the various factors that influence its total cost of ownership.

Through engaging modules, you will gain practical knowledge in analyzing the return on investment (ROI) for Viva deployments, making informed budgeting decisions, and effectively communicating the financial value of Viva to stakeholders. This course covers core technologies such as Microsoft 365 licensing structures as they pertain to Viva, understanding add-on modules, and strategies for cost optimization. By mastering these concepts, you'll be equipped to ensure your organization maximizes its Viva potential while maintaining fiscal responsibility.

Duration	2 hours
Level	Intermediate
Vendor	Microsoft

COURSE CURRICULUM

01 Module 1: Introduction to Microsoft Viva and its Value Proposition

- Overview of Microsoft Viva modules and their purpose
- Understanding the employee experience platform concept
- Brief review of Viva's integration with Microsoft 365
- Identifying key business benefits and use cases for Viva

02 Module 2: Deciphering Microsoft Viva Licensing Models

- Core Microsoft 365 licensing tiers relevant to Viva access
- Detailed breakdown of Viva suite and individual module licensing options
- Understanding per-user vs. organizational licensing implications
- Exploring add-on functionalities and their associated costs

03 Module 3: Cost Analysis and Total Cost of Ownership (TCO) for Viva

- Methodologies for calculating Viva deployment costs
- Identifying direct and indirect cost components (licensing, implementation, training, support)
- Estimating Return on Investment (ROI) for Viva initiatives
- Tools and techniques for budget planning and forecasting for Viva

04 Module 4: Optimization Strategies and Financial Management

- Best practices for cost optimization in Viva environments
- Strategies for negotiating Microsoft licensing agreements for Viva
- Monitoring and managing ongoing Viva expenses
- Reporting on Viva's financial impact and justifying investments

CAREER PATHWAYS

Graduates of this program are prepared for the following roles:

- > **IT Procurement Specialist (Microsoft Licensing Focus)**
- > **Digital Workplace Strategist (Budget & ROI Management)**
- > **Microsoft 365 Administrator (Financial Planning & Optimization)**

FREQUENTLY ASKED QUESTIONS

Q: What specific financial analysis skills will I gain to help my organization optimize its Microsoft Viva investment?

This course will equip you with the ability to analyze Viva's licensing models, calculate the Total Cost of Ownership (TCO), and project Return on Investment (ROI) for various Viva modules. You will learn practical strategies for budget planning, identifying cost-saving opportunities, and building a financial case for Viva adoption or expansion within your organization.

Q: Is prior experience with Microsoft Viva necessary, or will this course cover the basics needed to understand its cost implications?

While a foundational understanding of Microsoft 365 is beneficial, prior in-depth experience with specific Viva modules is not strictly required. The course includes a concise introduction to Microsoft Viva's purpose and key components, ensuring that even those new to the platform can grasp the financial aspects and effectively manage its associated costs.

Q: How will mastering the content of this course directly benefit my career as an IT professional or business leader involved with digital transformation?

By completing this course, you will become an invaluable asset in managing your organization's digital workplace initiatives, particularly regarding Microsoft Viva. You will gain the expertise to make data-driven financial decisions, optimize IT budgets, and credibly articulate the financial value of employee experience platforms to senior leadership, enhancing your strategic role in IT procurement, administration, or digital strategy.
