## FREQUENTLY ASKED QUESTIONS

### **Q: What are the specific entry requirements for the online BSc (Hons) Business Computing & Information Systems (Top-up) programme, and who should enroll?**

To enroll in this 1-year advanced top-up degree, you typically need to have successfully completed a relevant Level 5 qualification, such as the NCC Education Level 5 Diploma in Business IT, Level 5 Diploma in Computing, or an equivalent higher national diploma (HND) or foundation degree in a related computing or business field. It is ideal for individuals who have already gained significant knowledge in computing and business at an associate level and are looking to fast-track their professional and academic development by converting their existing qualification into an internationally recognized honours degree, all while benefiting from the flexibility of online study.

### **Q: What career outcomes and progression opportunities can I expect after completing the online BSc (Hons) Business Computing & Information Systems (Top-up) degree?**

This 1-year advanced top-up degree is specifically designed to enhance your strategic understanding of business computing and information systems, preparing you for higher-level roles. Graduates are well-equipped for positions such as IT Consultant, Business Analyst, Systems Analyst, IT Project Manager, or Information Systems Manager across various industries. Academically, successful completion of this honours degree also provides a direct pathway to pursuing postgraduate studies, such as a Master's degree (MSc) in a related field, further specializing your expertise.

### **Q: How is the BSc (Hons) Business Computing & Information Systems degree, delivered online by NCC Education, recognized internationally?**

The BSc (Hons) Business Computing & Information Systems is awarded by the University of Central Lancashire (UCLan) and delivered by NCC Education, an internationally recognized British awarding body. As such, the degree holds the same international recognition and academic standing as a degree completed on-campus in the UK. NCC Education's qualifications are recognized by universities, employers, and professional bodies worldwide, ensuring your online top-up degree will be respected and valued across international borders, facilitating global career and academic advancement.

opportunities.
