FREQUENTLY ASKED QUESTIONS

Q: Who is the NCC Education Level 3 Diploma in Computing designed for, and what are the entry requirements at Computer Pride?

This 6-month foundation programme is ideal for students who have completed their secondary education (e.g., KCSE or equivalent) and aspire to a career in computing but may not yet meet the direct entry requirements for a university degree, or wish to build a strong foundational understanding. It's perfect for those seeking to develop essential IT, practical computing, mathematical, and transferable study skills before advancing to higher education or entry-level IT roles.

Q: What career paths or further study opportunities are available after completing the Level 3 Diploma in Computing?

Graduates of this Level 3 Diploma are well-prepared for progression onto NCC Education's Level 4 Diplomas in Computing or Business IT, which are equivalent to the first year of a UK Bachelor's degree. Alternatively, the programme provides a solid foundation for pursuing other higher education qualifications in computing or for securing entry-level support roles within the IT sector, leveraging the practical computing and IT skills gained.

Q: How is the NCC Education Level 3 Diploma in Computing recognised internationally, especially for further studies?

The NCC Education Level 3 Diploma in Computing is an internationally recognised qualification accredited by NCC

Education, a British awarding body. This means the qualification is valued globally, enabling graduates to pursue higher education opportunities at universities in the UK, Canada, Australia, and other countries that recognise NCC Education programmes. It serves as a credible foundation for academic and career advancement worldwide.
