FREQUENTLY ASKED QUESTIONS

Q: What are the entry requirements for the Level 4 Diploma in Computing (Business Management) and who should enroll?

To enroll in the Level 4 Diploma in Computing (Business Management), candidates typically need two A-Levels or an NCC Education Level 3 qualification. Alternatively, mature students with relevant work experience may be considered. This programme is ideal for individuals in Kenya who are keen to develop a strong foundation in both IT and business principles, aspiring to roles where technology meets commercial strategy, such as junior business analysts or IT project support specialists in business environments.

Q: What career outcomes can I expect after completing this diploma, and what are my progression opportunities?

Upon completing the Level 4 Diploma in Computing (Business Management), graduates are well-equipped for roles like junior business analyst, IT support specialist with business acumen, or administrative positions in IT departments within various business sectors. For progression, you can directly articulate into the NCC Education Level 5 Diploma in Computing (Business Management) or gain direct entry into the second year of a relevant Bachelor's degree program, such as Business Information Systems or Business Computing, at universities globally, including those with Computer Pride's partnership.

Q: How is the NCC Education Level 4 Diploma in Computing (Business Management) recognized internationally?

The NCC Education Level 4 Diploma in Computing (Business Management) is a UK-regulated qualification, granting it significant international recognition and credibility. As an NCC Education accredited partner, Computer Pride ensures that this qualification is globally accepted by universities for advanced entry into Bachelor's degree programs, typically allowing graduates to proceed directly into the second year. This makes it an excellent pathway for those in Kenya seeking to pursue higher education or career opportunities abroad in IT and business.
